(b)

(i) Capital Expenditure – refers to expenditure on items where the benefit derived is expected to last a long time (for more than one year).

E.g. Purchase of land, erection of buildings, purchase of machinery etc.

Revenue Expenditure – refers to expenditure where the benefit derived is of a temporary nature (less than one year).

E.g. Annual rates, light and heat, repairs, etc.

(ii) Revenue reserve is undistributed profit not paid out to the owners in dividends, it is profit retained by the business.

A revaluation reserve arises when land and buildings are increased in value but the profit made on these revalued fixed assets isn't transferred to the revenue reserve until the fixed asset is sold off. Up until the sale of the fixed asset this profit cannot be distributed to the owners.
