

To help you with the revision of the adjustments for the sole-trader, please write the type of adjustment in the adjustment column and then identify the following

- Green you are well able to complete the adjustment
- Orange you have an idea how to complete the adjustment but still need support from your notes
- Red you are completely lost with the adjustment and need more help

This will help you to concentrate your revision and study on the adjustments that are orange and red and be more efficient with your study/homework time
